WISSAM HAOUCHAR

FRONTEND DEVELOPER | REACT.JS & JAVASCRIPT

Tripoli, Lebanon • +961 70 364 245 • wissamhaouchar1@gmail.com
LinkedIn • GitHub

PROFESSIONAL SUMMARY

Computer Science graduate and frontend developer with hands-on experience building and maintaining a company website. Focused on React.js, JavaScript, HTML5, CSS3, responsive interfaces, reusable UI components, and REST API integration. Also familiar with Node.js, MongoDB, Python, and applied AI. Seeking a frontend developer role, with the ability to contribute to full-stack projects.

PROFESSIONAL EXPERIENCE

Frontend Developer — Beyroute Concierge | **2025–Present**

Travel and concierge services

- Built the company website from the ground up and continue to maintain it as the lead frontend developer.
- Develop responsive pages with React.js, JavaScript, HTML, and CSS for desktop, tablet, and mobile screens.
- Create reusable UI components to support consistent design and more efficient feature development.
- Integrate REST APIs to connect frontend features with live data and backend functionality.
- Troubleshoot bugs, deliver new features, and manage source control using Git and GitHub.
- Improve usability, responsiveness, and cross-browser consistency.

Software Development Intern — TechTalks | **2026**

- Completed practical training in modern web development, scalable architecture, and API-driven system design.
- Applied collaborative development workflows and professional software development practices.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
Backend & APIs	Node.js, REST APIs
Databases	MongoDB, MySQL
Tools	Git, GitHub, Visual Studio Code
Additional	Python, Streamlit, Power BI, Generative AI, RAG, AWS, Cisco Networking

SELECTED PROJECTS

Full-Stack Web Applications | React, Node.js, MongoDB, Bootstrap — Developed responsive web applications with modern UI design and database integration.

Retrieval-Augmented Generation (RAG) Project | Python, embeddings, vector databases — Built an NLP application combining information retrieval with text generation.

Sports Sentiment Analyzer | Python, Streamlit — Developed a sentiment analysis application with classification and interactive visualizations.

University Event & Club Management System | Software engineering — Designed system architecture and documentation, including ERD, DFD, use cases, and UI.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science — Lebanese International University | Graduated August 2026

Certifications & training: Career Essentials in Generative AI (Microsoft & LinkedIn, 2026); IBM SkillsBuild — Generative AI, Web Development Fundamentals, Enterprise Design Thinking Practitioner (2026); TechTalks Internship Program (2026); Power BI Data Analysis (LASeR / Khawarizme, 2024); AWS training (4 months); Cisco Networking & IT Technologies.
